Re: **Proposed Permanent Art Piece**

Several months ago Paul Cousins brought to the attention of the Arts, Culture & Heritage Committee a sculpture of a fish that had been created by Peter Griz of the Twisted Fish Gallery in Elk Rapids, Michigan. The Committee felt that it would be an excellent addition to the new Mill Creek Park. The list price is $2,400. A picture of the sculpture is attached. The general location would be the along the creek near the overlook with the benches in front of 3045 Broad. Final location will be coordinated with the Parks & Recreation Commission.

If the Committee is in favor of selecting this as a permanent piece it will be reviewed by the Parks & Recreation Commission in May and then presented to Council for their approval.
